Wexford Health Sources, Inc. Records Strong Performance during First Quarter of Health Care Services for Pinal County Jail (Arizona)

October 13, 2017 – Wexford Health Sources, Inc. (Wexford Health) recently held its first quarterly review meeting with Pinal County officials to discuss the transition and implementation of health care services at the jail. On June 18, Wexford Health began providing comprehensive health services for Pinal County Jail, a first-time health care privatization in Florence, Arizona. Working together with county officials, Wexford Health provided an efficient and seamless transition for health care services while retaining 90% of the former county employees.

Wexford Health's contract with Pinal County is for an initial three-year period, with options for two additional one-year renewals. The contract calls for the company to provide comprehensive health services for approximately 800 adults and juveniles. The addition of the Pinal County Jail contract expands Wexford Health's Arizona jail footprint.

Wexford Health president and CEO Dan Conn states, "We are so pleased to start this new business relationship with Pinal County and the Jail. We will work hard to meet the needs of the County, and provide cost-effective and quality health care services for the Jail. "

For the past two and a half decades, Wexford Health has supported correctional agencies across the nation by consistently delivered proven staffing expertise and a full range of medical, behavioral health, pharmacy, utilization management, provider contracting, claims processing, and quality management services.

Wexford Health Sources, one of the nation's largest correctional health care companies, provides medical, mental health, pharmacy, rehabilitation, utilization management, claims processing, and technology services to state, regional, and local clients across the country. The Pittsburgh-based company helps governments, correctional facilities, and other institutions control inmate health care costs while maintaining quality of care.
